Polls will be open at all locations on May 28th from 7:00 a.m. to 7:00 p.m. We are taking seriously the health and safety of our election workers as well as our voters who come to the polls. All election officials will have N95 masks, face shields, gloves, hand sanitizers, disinfecting supplies and a plastic barrier at the election official’s tables separating the voter from the election worker. All polling locations will be set up following the social distancing and disinfecting guidelines as well as limiting the number of people in the polling location. We will allow 1 voter per voting station and will tape off the other 3 to make sure that social distancing is maintained. We ask voters to please wear a mask while voting as well as gloves and to bring their own pen for voting. If someone forgets a pen, we will give them one to use and have them hand it in when they are finished. We will then sanitize them before they are used by another voter.
